	Application No.	Applicant(s)
Notice of Allowability	10/651,072	PARKER, ALAN FRANK
	Examiner	Art Unit
	Ismael Negron	2885
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. This communication is responsive to After-Final Amendment filed February 1, 2007.		
2. The allowed claim(s) is/are <u>40-45</u> .		
3.		
Attachment(s)  1. Notice of References Cited (PTO-892)  2. Notice of Draftperson's Patent Drawing Review (PTO-948)  3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date  4. ## **DETAILED ACTION**

## Response to Amendment

1. Applicant's after-final amendment filed on February 1, 2007 has been entered. No claim has been amended. Claims 29-39 have been cancelled. Claims 40-45 have been added. Claims 40-45 are still pending in this application, with Claim 45 being the only independent claim.

## Allowable Subject Matter

- 2. Claims 40-45 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

Applicant discloses an illumination device having a body member having at least one transparent region, at least one light source located inside the body member and disposed along a longitudinal axis of such member. Optical particles are located inside the body member and surrounding the at least one light source. The body member is a sealed enclosure with electrical conductors extending through a wall of such enclosure by means of a gas tight seal, for providing power to the light source.

**Kaye** (U.S. Pat. 4,929,021) discloses an illumination device including a body member having at least one transparent region, a plurality of light sources positioned within the body member and aligned along its longitudinal axis, and a plurality of closely packed but non-adhering transparent optical particles disposed within the body member and extending contiguously between the light sources and the transparent region of the

Art Unit: 2885

body member. However, Kaye is silent as to the body member being a sealed enclosure with electric conductors for powering each source of light, passing through a wall of the enclosure by way of a gas tight seal.

- 4. No prior art was found disclosing individually, or suggesting in combination, a sealed body member with electrical conductors providing power to the light source and extending through a gas tight seal on a wall body member, in combination with the claimed illumination device.
- 5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ismael Negron whose telephone number is (571) 272-2376. The examiner can normally be reached on Monday-Friday from 9:00 A.M. to 6:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jong-Suk (James) Lee, can be reached on (571) 272-7044. The facsimile machine number for the Art Group is (571) 273-8300.
